

Find All Your Buddies With Smart Buddy, the Universal Poker Buddy List

Poker Pro Labs Inc. has announced the release of Smart Buddy - a new poker buddy tool that works across most major poker sites. Smart Buddy supports all game types and finds players on cash games, as well as multi-table tournaments and sit and go's.

San Francisco, CA ([PRWeb](#)) August 15, 2007 -- [Poker Pro Labs](#), the leader in online poker tools, services and technology has released a universal poker buddy list: Smart Buddy.

A poker buddy list is an indispensable poker tool for online poker players who use the technology to track down particular players, usually the weakest ones, and take advantage of their shortcomings at the table. In poker, knowledge is power, and knowing when and where weak opponents are playing gives the strong player the upper hand.

"Smart Buddy is a must have tool for every poker player who is interested in finding the most profitable players to play against. With an easy to use interface similar to an instant messenger tool, you will be up and running in minutes.", says Len Mugin, COO of Poker Pro Labs.

Smart Buddy, which comes pre-loaded with over 120 famous players, allows a player to see who is online at multiple poker sites. Smart Buddy tracks players from site to site, with the ability to add real names and icons for each player, and to sort players by category. It can also be filtered to show active players that are online, avoiding the need for cumbersome searches at the individual poker sites. With over 2,000,000 players tracked, Smart Buddy is becoming an essential tool in the arsenal of an online poker player.

Download a free trial of Smart Buddy at [Poker Pro Labs](#).

About Poker Pro Labs Inc: Poker Pro Labs is the online poker industry's leader in providing poker players with the most advanced online poker tools, services and technology.
